EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dr. Vipul Roy on 1/22/2007.

The application has been amended as follows:

Claims 1-30 have been cancelled.

New claims 31 and 32 have been added and read as follows:

--Claim 31: A permanent pacemaker or cardioverter-defibrillator (PPM/ICD) system comprising:

an implantable device adapted to be implanted in a patient having:

a battery;

a built-in electric power generator, said generator comprising a rotatable

magnet and a coil encircling said magnet, said generator for

generating power for recharging said battery;

radiological markers; and

two radiological distinct poles covered with insulating material, said poles

adapted to connect to an outside power source if said power

generator fails;

- an external large-diameter coil which is adapted to move in multiple planes and has fluoroscopic facility for alignment with said radiological markers, wherein said rotatable magnet is adapted to rotate and produce electrical current in said encircling coil from said magnet when the external coil is energized;
- a non-rewritable CD with programming software; and
- a telemetry wand for use with a personal computer and internet connection to allow a remote programming center to follow-up with said implantable device in accordance with the programming software contained on said non-rewritable CD.

Claim 32: The system of claim 31 wherein said software is adapted to be compatible with a remote programming center many miles from the patient via said internet connection.--

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or reasonably teach of an IMD having the claimed combination of elements; namely the power generation scheme that includes a spinning magnet generator that is powered by a large external coil, wherein said large external coil also includes fluoroscopy facility.

Art Unit: 3762

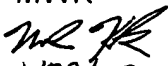

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
